

A NEW YEAR OF HAPPINESS

SETTLING DOWN IN ATLANTA BUT MISSING OUR FRIENDS AND RELATIVES

Hello everyone,

It's been a couple of months since our last newsletter and we wanted to update all of you on events and activities here in the South.

Vince has remained busy at CDC; as a medical epidemiologist he works on projects dealing with factors that cause diseases. This involves designing studies, analyzing data, and presenting his findings. In March, Vince presented data from the anthrax investigation in Washington, DC at a national conference on Infectious Diseases; he is also working on studies about diarrhea-causing viruses that will take him to Bangkok and Vietnam in May, with plans for China and

Malaysia later this summer.

Grace remains busy with projects at home while awaiting her work permit. Unfortunately, she fell ill for a week with upper respiratory symptoms and high fever, but we are thankful that she has recovered. She plans on doing some volunteer work at Children's Hospital at Emory University later this month. We both have been taking advantage

of the warmer weather by spending weekend days hiking, running, and cycling at Stone Mountain Park.

We are settling down nicely here in Atlanta, but we do miss our friends and family members. We have had some guests—the Hongos from San Francisco came by in March for a few days. The Hsu family will gather in Gatlinburg, Tennessee in July for a family reunion, but we also hope to see more of you—whether in Atlanta or elsewhere. At the very least, we appreciate hearing news about all of you, so keep those letters coming!

Love, Grace & Vincent

GRACE AND VINCE ON THE WEB Announces Home Website, Newsletter for Family and Friends

For quite some time, I've wanted to use the power of the Internet so that our family and friends can stay in touch with each other. Our new website aims to keep you informed about our activities,

while our online newsletter, *Family Matters*, will be a forum for all of you to post news and activities about each other.

Simply go to the address listed on the right to get more information and

to participate in our newsletter!

SHARING OUR BIG DAY WITH LOVED ONES

Although it has been almost four months since our wedding, we are still going through photographs that our friends have been sending us. We in turn would like to share some of these photographs with you. More wedding photos of us can be found on a website maintained by Dennis Lee at http://www.geocities.com/grace_vincent_hsu.
